## EDUCATION

### Üçüncü Binyıl Academy, Istanbul

Sep 2023 - Feb 2025

Completed a comprehensive training program focused on modern software development methods and technologies, covering mobile, frontend, and backend development.

### Halic University, Istanbul

2018 - 2020

Interior Design

### Ata College, Istanbul

2011 - 2016

## EXPERIENCE

### Kartelam, Istanbul – Jr. Full Stack Developer

Oct 2024 - Apr 2025

Worked at Kartelam during my Full-Stack Software Developer training to gain practical experience. Contributed to the development of a B2B web platform connecting wholesale textile suppliers with stores. Worked on both frontend and backend to facilitate product management and order processes.

### Teampack Packaging, Istanbul – Industrial Designer

Jul 2022 - May 2023

Designed custom packaging and vacuum mold solutions using Fusion 360. Created 3D product visualizations and provided technical support for the production process.

### Atlas 34 Construction, Istanbul – Interior Designer

Jul 2021 - Jul 2022

Managed interior architectural design, visualization, and project management for residential and villa projects. Developed design concepts and implementation details based on client requirements.
